## Capability Statement

### Mission Statement:

**Empire Landscape, LLC** is dedicated to providing high-quality workmanship in mitigation, restoration and environmental construction, tree removal/pruning and clearing. We create successful partnerships with our customers, prime contractors, governmental organizations, professional associates and suppliers by maintaining the highest level of professionalism, responsiveness, integrity and quality.

### Company Profile:

**Empire Landscape, LLC** is an MBE/DBE certified environmental restoration company specializing in reforestation, invasive species management, Green Infrastructure and storm water management planting, arborist services, tree work, clearing, native roadside plantings, erosion and sediment control system construction, habitat restoration including vernal pools, floodplain depressions and microtopography, hydroseeding, specialty ecosystem seeding, wildlife exclusion fencing, bioengineering, and landscape installation. Our owners bring customers over 70 years of combined experience in environmental restoration planting and construction. Since partnering to form Empire Landscape, LLC in 2005, the owners, Lynette Scaffidi, Eric Goodrich, and William Dowling, have provided thousands of acres of reforestation, bioretention planting and maintenance, invasive species management, arborist services, clearing, large tree removal, sediment and erosion control, bioengineering, dune restoration, native roadside restorative planting, complex commercial landscape installation to commercial contractors, parks and public utilities.

Our experienced employees stringently follow safety regulations, proper plant installation techniques, and permit requirements to ensure high quality work completed on budget and on schedule while satisfying all environmental construction and planting needs and specifications.
